🎮 My Hobbies

- Pencil Drawing
- Badminton
- Soccer
- Esports

I am a UI/UX designer with 3 years of experience building user-friendly, intuitive, and user-centric interfaces. I believe that good design is not only aesthetically pleasing but also solves real user problems. So I always start by listening and understanding, then translate it into smooth, natural experiences that help users achieve their goals easily and effectively. I am especially passionate about designing for mobile platforms and developing highly applicable digital products in everyday life — with clarity, purpose, and empathy guiding every design decision.
